### SUMMARY

Full-Stack Web Developer with expertise in building responsive and scalable web applications using modern tools like Next.js and React. Open to both front-end and full-stack roles. Knowledgeable in UX/UI principles, delivering user-friendly designs and robust solutions that align with business objectives and drive growth.

---

### EDUCATION

Specialized Technician Diploma in Fullstack Development

Oct 2022 - Jul 2024

Cités des Métiers et des Compétences

---

### WORK EXPERIENCE

Frontend Developer , CODPARTNER

Feb 2025 - Present

- Built a modern front-end with Next.js 15, integrating a Laravel API for the new platform.
- Converted Figma designs into responsive and reusable UI using Tailwind CSS and Shadcn UI.
- Optimized complex data workflows with TanStack Query.
- Collaborated with designers and back-end developers to deliver a seamless user experience.
- Aligned product features with business goals by collaborating closely with the product owner.

Frontend Developer Intern , CODPARTNER

Jan 2025 - Jan 2025

- Integrated React into a Laravel project to improve performance and user experience.
- Refactored and modernized specific features by building interactive UIs using React.
- Converted Figma designs into responsive UI with Tailwind CSS.
- Collaborated with designers and back-end developers.
- Implemented advanced state management to handle complex UI interactions.

Freelance Web Developer :

Fish Export-Import Company Websites (Kadifish & Rayhana [🔗](#))

May 2024 - Jun 2024

- Designed and developed responsive, animated WordPress websites for company branches in Spain and Morocco, incorporating custom CSS.
- Implemented UI/UX principles and multilanguage support (English, French, Spanish).
- Created unique branding elements and optimized site performance.

Cybersconsulting: Responsive Landing Page [🔗](#)

Aug 2023

- Redesigned and implemented responsiveness and interactive animations for the landing page using HTML5, CSS3, and JavaScript.
- Enhanced visual appeal with modern design principles and optimized performance.
- Resulted in improved user engagement and elevated brand image.

## PROJECTS

### Luxury Sports Car Rentals: Responsive Landing Page

Nov 2024 - Dec 2024

- Designed and developed a fully responsive landing page using Next.js 15, React, Tailwind CSS, Shadcn UI, React Hook Form, Zod, Redis Upstash, and Mailgun.
- Implemented reusable components and centralized styling for consistency and maintainability.
- Enhanced user experience with smooth animations using Framer Motion.
- Integrated spam protection features including reCAPTCHA V2 and IP-based rate limiting.
- Designed in Figma and deployed on Vercel.

### Cabin Booking Web Application

Jul 2024 - Sep 2024

- Designed and developed a cabin booking platform using Next.js 14, React, Tailwind CSS, and Supabase, Next Auth, optimized for desktop users.
- Enabled users to browse and filter cabins, check real-time availability, and make reservations.
- Integrated Google authentication for secure login, allowing users to manage profiles and view, edit, or cancel bookings.
- Optimized performance with SSR, ISR, server actions, and deployed on Vercel.

### Cabin Management Web Application

May 2024 - Jul 2024

- Designed and developed a modern cabin management platform using React, styled-components, React Router, Recharts, and Supabase, optimized for desktop and tailored for cabin staff to manage bookings, cabins, and guest operations efficiently.
- Implemented advanced state management with React Query and Context API, and efficient form handling with React Hook Form.
- Implemented user management, dashboards with statistics and charts, cabin and booking management, and customizable application settings.
- Designed with scalability, maintainability, and a dark mode for enhanced user experience.
- deployed on Vercel.
